- Blood Glucose
- Blood Oxygen
- Height
- Immunizations
- Medical Conditions
- Medications
- Medical Visits and Encounters
- Procedures
- Weight Values
- Vital Signs
- Messaging
- Lab Results
- Documents

#### Bring health data to life

Through the use of easy-to-understand graph and charts, MyCareCorner brings all your health data to life. MyCareCorner connects with common home health and fitness devices like blood pressure cuffs, blood glucose devices, and weight scales, freeing you from having to enter readings manually and ensuring your record always has accurate, consistent, on-time data.

#### Deepen relationships

Through remote patient monitoring, MyCareCorner gives you the support you need long after you leave your appointment. With secure messaging, you can contact and collaborate with your provider for any questions or concerns you have. You also can attach photos and files to the message if needed. With access to your provider, you never have to feel alone.

#### Your health on the go

With the ability to download the MyCareCorner mobile app, you now have access to your personal health records from anywhere with internet access. Like the desktop version, you can access your personal health records from hospitals, clinics and specialty care, now more conveniently than ever.
